

**MINSIG**Malaysian Infusion Nurses
Special Interest Group

TRAINING OF TRAINERS IN MANAGEMENT OF INTRAVENOUS THERAPY: "PREVENTION OF INTRAVENOUS DEVICE ASSOCIATED INFECTIONS" (MODULE 2)

PROGRAMME INFORMATION:

Date : Saturday 14 July 2018 (8.00am-4.30pm)

Venue : Wisma Jururawat, Petaling Jaya

LEARNING OUTCOMES

At the end of this seminar the participants will be able to:

- 1.State the epidemiology, pathogenesis and microbiology of intravenous device associated infections;
- 2.Describe the risk factors and methods for preventing central venous line infections in critical care units;
- 3.Use safe methods for disinfecting needleless connectors;
- 4.Explain the safety considerations when flushing vascular access devices;
- 5.Demonstrate how IV securement dressings can prevent intravenous device associated infections;
- 6.Discuss infection prevention and safety compliance protocols in intravenous care management.
